

How to enter the Erasmus MC

Due to the ongoing construction at the Erasmus Medical Center, it is rather difficult to enter the Medical Faculty of the Erasmus MC directly.

We strongly advise to travel by public transport.

On a different map on our website you can see the different public transport stops around the Erasmus MC

When you're there

Coming from Metro Station Dijkzigt you can walk into the direction of the Sophia's Children's Hospital. Outside there is a staircase leading you to the first floor. Do NOT enter the hospital but turn right and follow the corridor (ride line on the picture) into the parking area. Turn right again after the bridge and the sign post and follow the signs leading you to the staircase or elevator taking you up to the Erasmus MC, Medical Faculty, third floor.

You can now use the Faculty map on our website to find the exact location within the Medical Faculty.
