

PhD Portfolio Summary

Summary of PhD training and teaching activities

Name PhD student: Claudia Sofia Cardoso Gaspar Erasmus MC Department: Pathology Research School: Medisch-Genetisch Centrum Zuid-West Nederland (MGC) and Erasmus Postgraduate School Molecular Medicine (MolMed).		PhD period: November 1999 to February 2009 Promotor(s): Prof.dr. Riccardo Fodde Supervisor: Prof.dr. Riccardo Fodde	
1. PhD training			
	Year	Workload (Hours/ECTS)	
General academic skills			
- Laboratory animal science	2000	80h	
Research skills			
- Statistics, Leiden	2003	20h	
In-depth courses (e.g. Research school, Medical Training)			
- In vivo imaging; from cell to organism.	2004	31h	
- Course Ensembl.	2004	8h	
- Transgenesis, Gene targeting and gene therapy.	2001	40h	
- Oncogenesis and tumor biology.	2000	30h	
- Signal Transduction.	2000	40h	
Presentations			
- "MaSCs vs. MaCSCs similarities and differences". BSIK. Rotterdam, Netherlands.	2008	24h	
- "Apc1572T: a mouse model encoding for Wnt/b-catenin signalling dosages affecting mammary but not intestinal stem cell homeostasis and malignancy". International Workshop on Cancer Stem Cells 2 nd edition. Milan, Italy.	2007	24h	
- "Wnt activated stem cells in colon and breast cancer". BSIK. Rotterdam, Netherlands.	2006	24h	
- "Wnt/b-catenin signalling dosages and organ specific tumorigenesis: a cancer stem cell effect?". Keystone Symposia: "Molecular Regulation of Stem Cells". Banff, Canada.	2005	24h	
- "Generation and characterization of two new mouse models for FAP: Apc1572T and Apc1572N". 4 th Joint Meeting Leeds Castle Polyposis Group and International Collaborative Group Hereditary Non-Polyposis Colorectal Cancer. Cleveland, Ohio, USA.	2003	24h	
- "Dosage effects of Apc mutations on β -catenin signal transduction measured by expression profiling". AACR – 93 rd Annual meeting. San Francisco, California.	2002	24h	
- "Identification of the downstream targets of the APC/ β -catenin signal transduction pathway". 3 rd Joint Meeting Leeds Castle Polyposis Group and International Collaborative Group Hereditary Non-Polyposis Colorectal Cancer. Venice, Italy.	2001	24h	

International conferences		
- Stem Cells, Development and Regulation, Amsterdam.	2008	
- International Workshop on Cancer Stem Cells 2 nd edition, Milan, Italy.	2007	
- Keystone Symposia: “Molecular Regulation of Stem Cells”. Banff, Canada.	2005	
- 4 th Joint Meeting Leeds Castle Polyposis Group and International Collaborative Group Hereditary Non-Polyposis Colorectal Cancer. Cleveland, Ohio, USA.	2003	
- AACR – 93 rd Annual meeting, San Francisco, California.	2002	
- Wnt signalling in development and cancer, Amsterdam.	2002	
- 3 rd Joint Meeting Leeds Castle Polyposis Group and International Collaborative Group Hereditary Non-Polyposis Colorectal Cancer. Venice, Italy.	2001	
Seminars and workshops		
- ICRF-MGC Graduate student workshop, Oxford, UK	2000	24
- 2 nd joint ICRF-MGC Graduate student Colloquium, Bruges, Belgium	2001	24
2. Teaching activities		
	Year	Workload (Hours/ECTS)
Lecturing		
- Euroconference on Animal Models of Human Diseases. Sesimbra, Portugal: “Expression profiling in cancer research”.	2001	48h
- ErasmusMC Molecular Medicine Master of Science: “Apc dosage effects in differentiation”	2005	24h
Supervising practicals and excursions		
- Practical supervision on mutational analysis. Leiden University	2002	4h
- Practical supervision on the use of the bioinformatic tool: RasMol.	2002	150h
